CHANGING COURSE: ANTICOAGULATION IN SECONDARY PREVENTION OF CAD

THURSDAY, APRIL 26, 2018

**11:45 AM – 12:15 PM
Registration and Buffet Lunch**

**12:15 PM – 1:15 PM
CME Symposium**

MANCHESTER GRAND HYATT

**Harbor I, 2nd Floor
1 Market Place
San Diego, CA 92101**

This event is not part of the official SCAI 2018 Scientific Sessions as planned by the SCAI Program Committee.

Jointly provided by the Annenberg Center for Health Sciences at Eisenhower and Medtelligence in collaboration with Postgraduate Institute for Medicine.

Supported by an independent medical education grant from Janssen Scientific Affairs, LLC.

Faculty

Deepak L. Bhatt, MD, FSCAI, Chair

Executive Director
Interventional Cardiovascular Programs
Brigham and Women's Hospital Heart &
Vascular Center
Professor
Harvard Medical School
Boston, MA

C. Michael Gibson, MD, FSCAI

Professor of Medicine
Harvard Medical School
CEO and President
Baim Institute and PERFUSE
Study Group
Founder, Editor-in-Chief
Wikidoc.org
Boston, MA

Roxana Mehran, MD, MSCAI

Professor of Medicine (Cardiology) and
Population Health Science and Policy
Director of Interventional Cardiovascular
Research and Clinical Trials
Zena and Michael A. Weiner
Cardiovascular Institute
Icahn School of Medicine at Mount Sinai
New York, NY

CHANGING COURSE: ANTICOAGULATION IN SECONDARY PREVENTION OF CAD

Program Overview

This 1-hour, interactive symposium provides an opportunity for participants to evaluate the clinical issues and recent data regarding anticoagulation in patients with coronary artery disease (CAD). The introduction of non-VKA oral anticoagulants (NOACs) into clinical practice has produced a wealth of data, changed guideline recommendations, and continues to push into new areas where an anticoagulation strategy may supplement or replace current thrombocardiology strategies for vascular protection from clot formation and embolization. Internationally renowned experts will evaluate the data, clinical implications, and recommendations in secondary prevention of CAD where an antiplatelet + anticoagulation management strategy has increasingly benefited patients by protecting against clot formation and embolization with NOACs, while keeping bleeding risks acceptable.

Learning Objectives

After completing this activity, the participant should be able to:

- Describe the rationale for combining an anticoagulant with antiplatelet therapy after stenting
- Relate the clinical implications of anticoagulation in CAD, based on recent data
- Utilize NOACs at the proper dose for patients with moderate or high risk of stroke, advising patients of the risks and benefits, and performing proper follow-up
- Apply guideline recommendations for secondary prevention of CAD after ACS or PCI and discuss the proposed changes that have been recommended based on recent data

CHANGING COURSE: ANTICOAGULATION IN SECONDARY PREVENTION OF CAD

Target Audience

This activity has been designed to meet the educational needs of Interventional/Invasive Cardiologists, Cardiologists, Fellows, and other Healthcare Professionals involved in the care of patients with coronary artery disease.

Agenda

- 11:45 AM **Registration and Buffet Lunch**
- 12:15 PM **Welcome and Program Overview**
Deepak L. Bhatt, MD, FSCAI, Chair
- 12:20 **Anticoagulation in CAD: Putting Data
into Perspective**
C. Michael Gibson, MD, FSCAI
- 12:35 **DAPT Duration and the Challenges of New
Anticoagulation Data**
Roxana Mehran, MD, MSCAI
- 12:50 **Faculty Discussion**
All Faculty
- 1:05 **Q & A**
Faculty and Attendees
- 1:15 PM **Adjourn**

ATTENDANCE IS LIMITED

Physician Continuing Education Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Annenberg Center for Health Sciences at Eisenhower and Medtelligence. The Annenberg Center for Health Sciences at Eisenhower is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation

The Annenberg Center for Health Sciences at Eisenhower designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest

The Annenberg Center for Health Sciences at Eisenhower requires instructors, planners, managers and other individuals who are in a position to control the

content of this activity to disclose any real or apparent conflict of interest (COI) they may have as related to the content of this activity. All identified COI are thoroughly vetted and resolved according to the Annenberg Center for Health Sciences at Eisenhower policy. The existence or absence of COI for everyone in a position to control content will be disclosed to participants prior to the start of each activity.

Americans with Disabilities Act

Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact

Milly Marte prior to the live event at mmarte@medtelligence.net.

Fee Information

This activity is included in the Society for Cardiovascular Angiography and Interventions (SCAI) registration fee. Details are available here: scai.org/SCAI2018

Please note that unregistered guests cannot be accommodated.

Registration will be available onsite.
