## CME Dinner Symposium

# Anticoagulation in Polyvascular Disease: *Translating Data into Practice*

**Attendance is limited!**

Register online at: [events.medtelligence.net/ha18cad.html](https://events.medtelligence.net/ha18cad.html)

**Monday, November 12, 2018**

6:30 PM – 7:00 PM  
Registration

7:00 PM – 9:00 PM  
CME Dinner Symposium

**Hyatt Regency McCormick Place**

Regency Ballroom A, 2nd Floor  
2233 S. Martin Luther King Drive  
Chicago, IL 60616

**Monday, November 12, 2018**

6:30 PM – 7:00 PM  
Registration

7:00 PM – 9:00 PM  
CME Dinner Symposium

**Hyatt Regency McCormick Place**

Regency Ballroom A, 2nd Floor  
2233 S. Martin Luther King Drive  
Chicago, IL 60616

**Register online:**

**Faculty**

Jeffrey Weitz, MD (Chair)

Roxana Mehran, MD (Co-Chair)

Manesh R. Patel, MD

Alex C. Spyropoulos, MD

Faiez Zannad, MD, PhD

This event is not part of the official Scientific Sessions as planned by the AHA Committee on Scientific Sessions Programming.

Jointly provided by the Annenberg Center for Health Sciences at Eisenhower and Medtelligence, in collaboration with Postgraduate Institute for Medicine.

Supported by an independent medical education grant from Janssen Scientific Affairs, LLC.

# Anticoagulation in Polyvascular Disease: *Translating Data into Practice*

## Program Overview

This interactive symposium provides an opportunity for participants to evaluate the clinical issues and recent data regarding anticoagulation in patients with coronary artery disease (CAD) and peripheral artery disease (PAD). The introduction of non-VKA oral anticoagulants (NOACs) into clinical practice has produced a wealth of data, changed guideline recommendations, and continues to push into new areas where an anticoagulation strategy may supplement or replace current thrombocardiology strategies for vascular protection from clot formation and embolization. Internationally renowned experts will evaluate the data, clinical implications, and recommendations in secondary prevention of CAD and PAD where an antiplatelet + anticoagulation management strategy has increasingly benefited patients by protecting against clot formation and embolization with NOACs, while keeping bleeding risks acceptable.

## Target Audience

This activity has been designed to meet the educational needs of Cardiologists, Interventionalists, Internists, NPs, PAs, and other allied healthcare professionals involved in the care of patients with polyvascular disease.

## Learning Objectives

*After completing this activity, the participant should be better able to:*

- Describe the rationale for combining an anticoagulant with antiplatelet therapy after stenting
- Relate the clinical implications of anticoagulation in CAD based on recent data
- Utilize NOACs at the proper dose for patients with moderate or high risk of stroke, advising patients of the risks and benefits, and performing proper follow-up
- Apply guideline recommendations for secondary prevention of CAD after ACS or PCI and discuss the proposed changes that have been recommended
- Use anticoagulant strategies as thromboprophylaxis to treat medically ill patients discharged from the hospital

## Fee Information

There is no fee for this educational activity.

### Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Annenberg Center for Health Sciences at Eisenhower and Medtelligence. The Annenberg Center for Health Sciences at Eisenhower is accredited by the ACCME to provide continuing medical education for physicians.

### Credit Designation

The Annenberg Center for Health Sciences at Eisenhower designates this live activity for a maximum of 2.0 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

### Disclosure of Conflicts of Interest

The Annenberg Center for Health Sciences at Eisenhower requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest (COI) they may have as related to the content of this activity. All identified COI are thoroughly vetted and resolved according to the Annenberg Center for Health Sciences at Eisenhower policy. The existence or absence of COI for everyone in a position to control content will be disclosed to participants prior to the start of each activity.

### Americans with Disabilities Act

Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact Milly Marte prior to the live event at [mmarte@medtelligence.net](mailto:mmarte@medtelligence.net).

## Faculty

### Jeffrey Weitz, MD, *Chair*

Professor of Medicine & Biochemistry and Biomedical Sciences  
McMaster University  
Executive Director  
Thrombosis & Atherosclerosis Research Institute  
Hamilton, ON, Canada

### Roxana Mehran, MD, *Co-Chair*

Professor of Medicine (Cardiology) and Population Health Science and Policy  
Director of Interventional Cardiovascular Research and Clinical Trials  
Zena and Michael A. Weiner Cardiovascular Institute  
Icahn School of Medicine at Mount Sinai  
New York, NY

### Manesh R. Patel, MD

Professor of Medicine  
Chief, Division of Cardiology  
Co-Director, Heart Center  
Duke University Health System  
Durham, NC

### Alex C. Spyropoulos, MD

Professor of Medicine, Donald and Barbara Zucker School of Medicine at Hofstra/Northwell  
Professor, Center for Health Innovations and Outcomes Research  
The Feinstein Institute for Medical Research  
Director, Anticoagulation and Clinical Thrombosis Services  
Northwell Health  
New York, NY

### Faiez Zannad, MD, PhD

Professor of Therapeutics and Cardiology  
Head, Division of Heart Failure, Hypertension and Preventive Cardiology  
Department of Cardiovascular Disease  
Université de Lorraine  
Director, INSERM Clinical Investigation Center  
Nancy, France

## Agenda

6:30 PM

**Registration**

7:00

**Buffet Dinner**

7:00

**Program Overview**

*Jeffrey Weitz, MD, Chair, and  
Roxana Mehran, MD, Co-Chair*

7:10

**COMPASS: Putting Data into Perspective**

*Manesh R. Patel, MD*

7:30

**COMMANDER: Anticoagulation in Patients with HF and CAD**

*Faiez Zannad, MD, PhD*

7:45

**MARINER: Anticoagulation Data**

*Alex C. Spyropoulos, MD*

8:00

**Clinician Live Discussion**

*All faculty*

8:15

**Q & A**

*Faculty and Audience*

8:30

**Challenging Cases for Discussion**

*All faculty*

9:00 PM

**Adjourn**

*For other live and enduring CME activities, please visit [events.medtelligence.net](https://events.medtelligence.net).*
